

# LINEAL PRESS RELEASE

19<sup>th</sup> May, 2011

## **VINSON & ELKINS RLLP OUTSOURCE LEGAL SUPPORT SERVICES TO LINEAL**

### **FOR IMMEDIATE RELEASE**

Vinson & Elkins RLLP, a leading international law firm, has appointed Lineal to deliver a cost effective portfolio of on-site and off-site litigation and corporate support services.

Following an internal review, and as part of an on-going initiative to drive down costs and improve efficiency, Vinson & Elkins awarded the contract to Lineal, a results orientated legal support services provider.

Susan F Curtis, Director of Administration at Vinson and Elkins RLLP comments: "With Lineal, the ability to efficiently manage the process and operation of the mail and reprographics department is greatly enhanced, allowing us to provide clients with accelerated service and at lower costs."

Lineal will deliver a seamless 24 hour legal support solution to Vinson & Elkins that will provide an outsourced mail and reprographics service from their dedicated off-site facilities. Lineal will also assume full operational and managerial responsibility for Vinson & Elkins on-site mail and print room facility.

As part of Lineal's commitment to deliver best value and meet Vinson & Elkins needs in an integrated, focused and strategic manner, Vinson & Elkins will additionally be supported with a comprehensive range of secure electronic review and e-disclosure services.

/mf.

Lineal is one of the UK's leading specialist providers of key support services to the legal sector and has enjoyed significant growth due to its ability to build and maintain successful relationships with its rapidly expanding client base. Lineal also delivers added benefits to clients' staff members who TUPE over to Lineal, thereby facilitating a strong and fully integrated working partnership.

This important contract win reflects the desire of organisations within the legal sector to review and enhance their working practices, allowing them to efficiently respond to client needs within their highly competitive sector, whilst reducing operating costs.
